(54) **DISCOUNT PRICE CALCULATION SYSTEM**

(57)Abstract:

PURPOSE: To prevent errors by exactly and easily executing a discount sale at a shop and automatically calculating a sales price and a discount price at sales time while referring to a fraction discount unit, which is stored in a sales information managing device, for each of merchandise.

CONSTITUTION: When the fraction omitting sale of the sales price is required while a sales staff negotiates with a customer for sales processing at the shop, the sales price discounting fractions and the discounted amount are calculated while referring to the fraction discount unit for each of merchandise stored in a sales information managing device 1 by supporting the fraction discounted sales from

an account processor 2. When the fraction discounted sales from a total amount is generated, the sales price discounting fractions and the discounted amount are calculated for each of merchandise while referring to the fraction discount unit set on the sales information managing device 1 by indicating the fraction discounted sales of the total amount. Therefore, calculation errors caused by the manual calculation of sales staffs and input errors at the time of discounted price inputs can be prevented, fraction omitting sales processing can be easily performed, and the efficiency of sales processing can be improved.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
